

# ABDALLAH ALOTAIBI

Aspiring Cybersecurity Analyst | Networks & Systems

Saudi Arabia | abdullahphp20@gmail.com | +966 53 236 2289

LinkedIn · Portfolio

Final-year IT student specializing in cybersecurity and networking, with hands-on experience in building security-focused projects and configuring enterprise systems (Active Directory, DNS, DHCP). Strong interest in Security Operations (SOC) and network defense, with practical experience using tools such as Wireshark, Nmap, and Metasploit.

## EDUCATION

Prince Mohammad Bin Fahd University (PMU)

Aug 2021 – Jun 2026

Saudi Arabia — Khobar

**Bachelor of Science in Information Technology**

Relevant Coursework: Network Security, Systems Programming, Database Systems, Network Management

## SKILLS

**Cybersecurity:** Vulnerability Assessment, Web Security Basics

**Tools:** Wireshark, Nmap, Metasploit, Kali Linux

**Networking:** TCP/IP, VLANs, NAT, ACLs

**Systems:** Windows Server, Active Directory, Linux

**Programming:** Python, JavaScript, SQL

## CERTIFICATIONS

eLearnSecurity Junior Penetration Tester (eJPT), INE

Nov 2025 – Nov 2028

INE Certified Cloud Associate (ICCA), INE

Nov 2025

ISO/IEC 27001 Lead Auditor, Mastermind

Jul 2025 – Jul 2028

## PROJECT EXPERIENCE

### CTF-Play Platform — Graduation Project (2025–2026)

- Developed a Capture The Flag (CTF) platform featuring multiple cybersecurity challenges (e.g., SQL Injection, XSS)
- Designed and managed backend logic and database structure (MySQL)
- Simulated real-world security scenarios for training and skill development

### Broonet Server Setup — PMU (2025)

- Configured and managed Windows Server environment
- Implemented Active Directory, DHCP, DNS, and IIS services
- Applied basic network configuration and system administration practices

## LANGUAGES

Arabic — Native

English — Professional Working Proficiency
